Protective Services Initiatives

Children, Youth and Families

Vision

The Children, Youth and Families Department partners with communities to strengthen families in New Mexico to be productive and self-sufficient.

Mission

CYFD believes in the strengths and resiliency of families who are our partners and for whom we advocate to enhance their safety and well-being. We respectfully serve and support children and families and supervise youth in responsive, community-based system of care that is client-centered, family-focused and culturally competent.

- To continue efforts ensuring timely response to reports of maltreatment, enhancing voluntary services to at risk families, providing safe homes for children in out-of-home care, and working with families to address the risk issues that contribute to child maltreatment
- To improve outcomes addressing the unique need of older youth in faster care in the areas of education, financial assistance and housing
- To enhance visitation with children in foster care through staff training, tracking mechanisms and quality assurance reviews
- To expand foster and adoptive family recruitment efforts to increasing the number of placement resources available for children needing homes
- To partner with the New Mexico Court Improvement Project and the courts to expedite permanency for children by reducing delays, minimizing the need for continuances, expediting appeals and enhancing the quality of representation
- To facilitate the active engagement of parents, foster parents and youth in case planning through Team Decision Making, adoption mediation, video conference and increasing the participation of incarcerated parents

Did You Know???

- Over the past several years New Mexico has consistently reunified children with their families, with the ratio of those reunified typically exceeding the national standard by around 10 percent. Some of this performance is directly attributed to the mechanism by which a large majority of children in New Mexico enter foster care - emergency custody, often referred to as a "48 hour hold".
- Reunification is a complex issue, involving not only determining when a child can return home, but also considering which children should come into care. It is important to realize that there may be a link between the measure for children reunified and the measures for: 1) recurrence of maltreatment within 6 months; and 2) children reentering care within 12 months.
- Because of increasingly complex health, behavioral, and economic needs, more children and families in the New Mexico child welfare system may require sustained interventions that extend beyond the 12 month time-frame of the reunification measure. This requires careful monitoring and balancing of cases to assure positive outcomes for children and families.
